VICE PRESIDENT
DIRECTOR OF RESEARCH

July 30, 1968

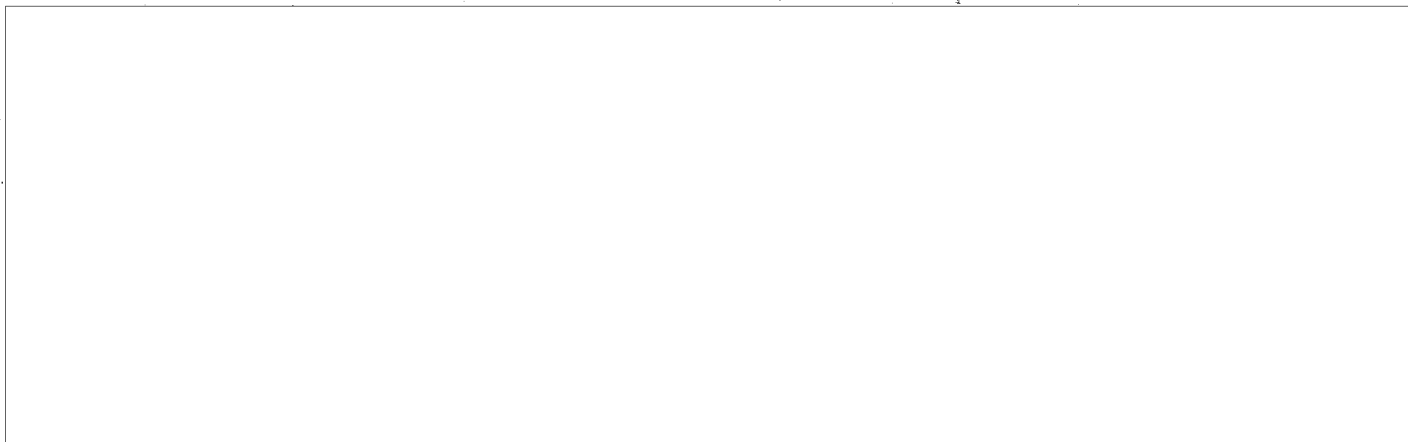

Dave C.

Dear Dave:

As you know, our current program is nearing completion and our main efforts pertaining to this product will now be supported by John's group.

Recent conversations with Don indicate that some QRC funds be set aside in order to carry out some minor tasks which would enable us to complete some investigations which have just recently been brought to our attention.

25X1

These above tasks could not be undertaken for the next 60 to 90 days due to previous commitments of our engineering staff; however, you are probably aware that we are currently setting up a [redacted] for one of our company self-supported programs which would be available to do this work at the later date.

July 30, 1968

The completion of the present system is scheduled for early September and I understand your organization intends to have it shipped to the East Coast possibly for demonstration purposes. Such being the case, we would strongly recommend that funding be available so that you may have adequate support by our engineering staff during the initial setup period.

We are not in a position at this time to give estimates relative to the cost of each of these tasks but would recommend approximately be set aside for these and possibly other purposes. If I can provide additional information, please advise.

25X1

With kindest personal regards....

Sincerely,

LCF/pc
